Is your pet(s) on any special food?:

Special Comments or Instructions:

Please review:

To help protect your pet as well as the other pets under our care, we require that all pets be vaccinated for common infectious diseases (Dogs: DHLPP + CCV + Br) (Cats: Br. +CVR +C).

Proof of updated vaccines from a licensed Veterinarian is a requirement for boarding.

If your pet(s) are not currently vaccinated, we will provide that service upon admittance.

When boarding for more than 3 days, we will bathe your pet to avoid any possible transmission of skin parasites to your premises; however, if your pet is infested with fleas or ticks, we will de-flea or de-tick before entering for boarding.

We will give you your pet back clean and free of external parasites.

These procedures will be explained to you before dropping off your pets(s) and the charges will be notified in a written estimate.

If while in the hospital my pet gets sick, I give permission to the doctors at Mueller Animal Hospital to perform the reasonable tests and treatments that my pet may need after trying to contact me or the person assigned as emergency contact.

I will be responsible for the cost of such test and/or treatments.

Note: Aggressive animals may need sedation for handling or bathing. I'm aware of this and give authorization to sedate.

I have read the above and I understand the policy for boarding.
